About This Game

Mr. Fatty Maze's Adventures is a logic game based on a thrilling story that offers an entirely new outlook on the world of labyrinths!

★ FATTY MAZE'S STORY ★

Mr. Fatty Maze is the main character, a tourist who found a treasure map and ventured on a journey to find it. On its way to an island marked on the map, his plane crashes, but the brave traveler survives. He wakes up to find himself in a giant maze that he must escape from to reach the treasure.

★ GAMEPLAY ★

Your task will be to help the nice and unlucky character find a way out of this difficult situation by guiding him through the maze and, hopefully, taking him to the treasure chest. To do that, you will need all your concentration, logic, memory and patience. It's a long and treacherous journey through a labyrinth where you will need to find keys to exit doors. You will encounter all kinds of obstacles, such as stones, plants, rivers, portals, crates and much more. You will also need to find many items that will help you overcome these obstacles.

Each labyrinth is a unique exciting puzzle where you can easily get lost. However, if you find yourself in a dead end with no way out, you can always restart the game and try again. Sometimes even the weather will be a problem, making it hard for Mr. Fatty Maze to navigate through the maze in mist, during a blizzard, storm or night time.

The game offers an exciting atmosphere, colorful graphics and animations, great music and sound effects, adventures in locations covered with jungle, ice and sand, over 50 types of levels, over 25 types of game items and obstacles and an amazingly

beautiful and mysterious world! But the most important feature is the main character who changes depending on the maze conditions.

You will be surprised to see how much better your memory and ability to solve logic puzzles will improve after beating the game!

The game has no level time limitations, but the faster and more efficiently you beat a level, the more points you will get to compare your score with that of your friends.

The game was created both for adults and their kids!

The level editor to share after the game is released. Potential modification of the game is very high, with the level editor you can create amazing mazes and to share them with other players.

Interesting little game if you enjoy mazes. Fun for a few minutes in between games or if you just want a quick run. There is a nice progressive difficulty with the mazes, reminds me of a more modern version of Chip's Challenge back on older computers. It combines Speed Running with quick thinking, memory and making sure you have necessary items. Instead of Keys the levels have different items such as boats to travel across water, mushrooms and different things related to the type of environment. Fatty happens to be challenging.

Yes, you play as a Fat guy stuck in a maze. 10/10.

As for price, get it on sale. Only paid about \$5 for this.
